

More Bandwidth – Less Price

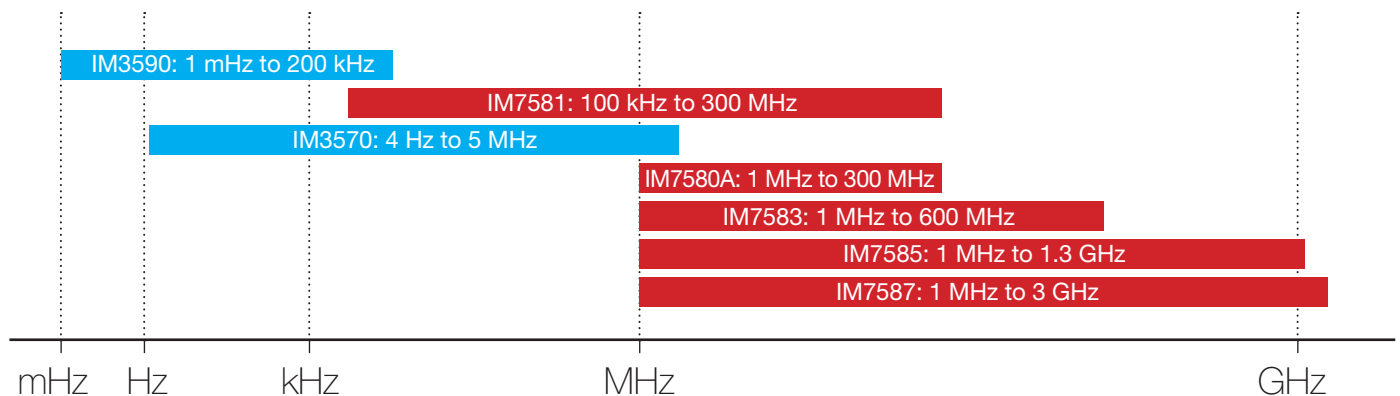

Combine 2 Impedance Analyzers
to measure from mHz to GHz and save 20%*

The choice is yours!

Choose one Impedance Analyzer for low frequencies (IM35XX-series) and add an Impedance Analyzer for high frequencies

(IM75XX-series) to maximize your measurement bandwidth and save 20% compared to purchasing the instruments separately.

Also Save 20%
on all accesories you add.*
