

## Cable ties with ball-lock

### MBT-Series, stainless steel 316

Metal ties are predestined for all areas with requirements for high holding force, reliability and fire resistance. The MBT range of stainless steel cable ties can be used in chemical industry and on oil platform as well as in mass transit, shipbuilding and mining industry. MBT ties are also suitable for machine building, apparatus construction and in the outside area of radio technology. Additionally MBT ties are a good solution to fix lighting in theatres and exhibition halls.

#### Features and benefits

- MBT cable ties made from stainless steel 316
- Non-releasable locking feature
- Corrosion resistant
- Weather resistant
- Outstanding chemical resistance
- High temperature resistant
- Non-burning

Stainless steel cable ties, uncoated, MBT\_S, MBT\_H.

**Material specification please see page 26.**

MBT-Series 4.6 mm and 7.9 mm width

**Can support quality assurance in the production of food stuffs, for example HACCP.**

**For hard, smooth surface applications, we recommend the use of our LFPC protective channels. More details please find on pages 36 and 89.**
