## / C20H-ISOL

Safety shoes with insulating soles tested up to 20kV

### / Standards

- EN ISO 20345:2022 : SB
- Heel energy absorption : E
- Pierce-resistance : PL
- Oil resistance : FO
- Water resistance : WPA
- Cold insulation : CI
- Slip resistance 2022 : SR
- ASTM F2413 : ASTM F2413-18

### / Use

For electrical maintenance, on the network and in all types of industry.  
Protection against step voltage - for use in dry environments.

### / Advantages

- Removable anti-bacterial insole
- Anti-twist system
- Waterproof-breathable lining
- Non-magnetic shoe

## / Technical specifications

- **Shape** : High shoes
- **Available sizes** : 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47
- **Main color** : Black
- **Weight EU (g per pair)** : 1300
- **Midsole material** : Metal free
- **Fastening** : Laces
- **Outsole material** : PU3D
- **Security toe cap material** : Composite
- **Toe cap energy absorption** : 200j
- **Metal free**
- **Lining material** : Textile
- **Upper finition** : Nubuck, Velvet
- **Upper material** : Leather
- **Benefits element** : Metal free, Shock absorbtion, Anti-torsion
