/ TC42ESCI

Multi-position flame retardant balaclava

/ Standards

- EN ISO 11612 : A1, B1, C1, F1
- EN 1149-5
- ASTM F1506 & ASTM F1959 : ATPV 10 cal/cm²

/ Use

High versatility in terms of position on the head or on the face: balaclava, scarf, mask, forehead band, beanie ; and then it returns to its original shape.
Can be worn under all helmets.
Very comfortable: soft, extensible and seamless.
Quick drying and good moisture management, thanks to its composition: 87% Meta-Aramid Nomex®, 5% Para-Aramid Kevlar®, 4% carbon fibres P-140, 4% elastane.

/ Advantages

- No metal parts (non-magnetic)

/ Technical specifications

- Main color : Dark blue
- Weight (g) : 100
