Live working boots with insulated soles

/ Standards

- EN ISO 20345:2011 : SBEP
- Electrical properties : A
- Heel energy absorption : E
- Oil resistance : FO
- Water resistance : WRU
- Heat resistance : HRO
- Slip resistance 2011 : SRC
- ASTM F2413 : ASTM F2413-18

/ Use

Insulating sole tested up to 18 kV according to ASTM F2413-18

/ Advantages

- Abrasion resistance of the front of the shoe, in kneeling position
- Easy to remove
- Excellent grip on all types of ground thanks to the design and material of the sole

/ Technical specifications

- **Shape** : High shoes
- **Available sizes** : 39, 40, 41, 42, 43, 44, 45, 46, 47
- **Main color** : Black
- **Footbed characteristic** : Ergonomic, Removable
- **Midsole material** : Metal free
- **Fastening** : Laces, Zipper fastening
- **Reinforcement place** : Front
- **Outsole material** : PU, 2d
- **Security toe cap material** : Composite
- **Toe cap energy absorption** : 200j
- **Metal free**
- **Lining material** : Coolmax
- **Upper finition** : Grain Leather, Hydro
- **Upper material** : Leather
- **Benefits element** : Metal free, Shock absorbtion, Front reinforcement
